

The NEBOSH IIRSM Certificate in Managing Risk

The **NEBOSH IIRSM Certificate in Managing Risk** is an ideal option for individuals aiming to develop the ability to recognize, assess, and handle risks within an organization, as well as comprehend the significance of risk management processes. It is especially suitable for risk management practitioners seeking to expand their understanding of risk beyond specific areas like health and safety, quality, or business continuity.

Who is the course for?

The NEBOSH IIRSM Certificate in Managing Risk is a perfect choice for anyone who wants to be able to identify, evaluate, and manage organisational risks and understand their impacts. It is particularly relevant for risk professionals looking to gain a broader view of risk beyond a specialism such as health and safety, quality, or business continuity.

What will you learn?

By studying this qualification, you will learn:

- The principles of risk and risk management
- The risk management process and framework based on ISO 31000
- The relationship between psychology and decision-making
- How to analyse the environment in which an organisation operates, identifying potential risks and opportunities
- The relationship between risk management, business continuity, crisis management and organisational resilience

How will it help me?

- **Expand your expertise** – obtain a broad understanding of risk and its management, advantageous if your current specialization is in a specific risk area like health and safety.
- **Versatile abilities** – the competencies acquired are applicable across various organizations, sectors, and roles globally.
- **Career growth** – your educational pursuits will enhance your risk management abilities, which are sought after in the marketplace.
- **Acknowledgment** – upon completion, you'll qualify to become an Associate member of IIRSM with a reduced fee for the initial year.
